Basic

Basic earnings per share is calculated by dividing the profit attributable to equity holders of the Company by the weighted average number of ordinary shares in issue during the period.

	For the six months ended	
	30 June 2007	30 June 2006
Profit attributable to equity holders of the Company (US\$'000)	<u>159,689</u>	<u>82,006</u>

Basic earnings per share (US cents per share)	<u>6.196</u>	<u>3.241</u>

Diluted

Diluted earnings per share is calculated by adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares. The Company has two categories of dilutive potential ordinary shares: convertible bonds and share options. The convertible bonds are assumed to have been converted into ordinary shares and the net profit is adjusted to eliminate the interest expense. For the share options a calculation is done to determine the number of shares that could have been acquired at fair value (determined as the average annual market share price of the Company's shares) based on the monetary value of the subscription rights attached to outstanding share options. The number of shares calculated as above is increased by the number of shares that would have been issued assuming the exercise of the share options.

For the six months ended 30 June 2007, all the share options issued under the Executive Option Scheme and the New Option Scheme have the greatest dilution effect. For the six months ended 30 June 2006, all the share options issued under the Executive Option Scheme and share options at exercise price of HK\$6.81 and HK\$11.60 per option share issued under the New Option Scheme have the greatest dilution effect.

In addition, 17 ultra high-end residential condominiums ranging from 1,500 to 3,000 square feet will occupy the top 10 floors of the tower. The Group has 25.9% interest in the entire project. The project is scheduled to open in 2010.
- In May 2007, the Group entered into a long-term operating lease agreement for the 207-room deluxe Shangri-La Hotel, Vienna, opening late 2009. The hotel will be located in the former Erste Bank headquarters on the Schuberting in the city's 1st district, Bezirk, within walking distance of upscale shopping, fine dining and other local national attractions.
- In June 2007, the Group entered into a shareholders' agreement with MCS Holding LLC, a local company which also holds 40% interest in the Group's office tower project in Ulaanbaatar, for the establishment of a project company in which the Group will have 75% interest. The project company will invest in a 220-room Shangri-La hotel development project to be completed by end 2010. Construction work will commence once the land use rights are transferred to the project company from a wholly-owned subsidiary of MCS Holding LLC before end of December 2007.
- In July 2007, a wholly-owned subsidiary of the Company was successfully awarded the land use rights for a hotel development in a land auction in Hefei, Mainland China. Construction work for this 400-room Shangri-La will commence in the fourth quarter 2007.
- The estimated incremental funding required directly at the corporate level, by the subsidiaries and the Group's share of the funding obligations of its associates for these projects and other renovations being undertaken is currently estimated at US\$1,975 million and will be mainly financed by available borrowing facilities and the net proceeds from the rights issue, funds from operation and locally contracted project loans as appropriate. Joint venture partners will provide the balance of funds required for those developments not wholly-owned by the Group.

CONNECTED TRANSACTION

- In July 2007, the Group entered into joint venture agreements with two connected persons and an independent third party to establish two joint venture companies for the purposes of acquiring, owning, managing, operating and chartering two aircrafts. The Group has a 25% interest in each of the joint venture companies. The Group's share of the maximum funding commitment is US\$10,050,000. Given the extensive network of hotels, properties, production facilities and other interests of the Group and its other three partners in this joint venture within Mainland China and the Asia Pacific region, the use of the aircrafts will provide the respective key management staff and the team the flexibility to travel to locations as determined by business exigencies. This will help to shorten the overall travel time, improve productivity and enhance management effectiveness.

PROSPECTS

After the strong performance experienced in 2006, the hotel operations and property investments have maintained the momentum for the six months ended 30 June 2007. This is generally expected to continue for the rest of this year. The Group has embarked on several new hotel and mixed use property developments primarily in Mainland China. Progress on implementation of these projects has been satisfactory and the Group has not experienced any major delays in commissioning its new developments. The Group remains optimistic about the medium term prospects for its business in Mainland China and the rest of Asia where most of its investments are located. The Group continues to identify and evaluate opportunities mainly in the Asian region and in the near term expects to add to the list of development projects currently on hand. The Group also expects the management agreements it has signed for third-party owned hotels under development to contribute meaningfully to its profits once these hotels reach stable operating conditions. These agreements, also serve to increase the exposure of the Group's hotel brands and indirectly underpin the performance of the Group's owned properties in the Asian region.

PURCHASE, SALE OR REDEMPTION OF LISTED SECURITIES

There was no purchase, sale or redemption by the Company or any of its subsidiaries of the Company's listed securities during the six months ended 30 June 2007.

CORPORATE GOVERNANCE

The Company has always recognised the importance of transparency in governance and accountability to shareholders. The Board believes that shareholders can maximise their benefits from good corporate governance. Therefore, the Company continuously reviews its corporate governance framework to ensure that it is aligned with generally acceptable practices and standards.

During the period under review, the Company has met the code provisions as set out in the Code on Corporate Governance Practices contained in Appendix 14 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited, except that the Company has not appointed a chief executive officer since Mr. Giovanni ANGELINI is already, and has been since 1999, a chief executive officer of Shangri-La International Hotel Management Limited, which administers on a day-to-day basis the hotel business which accounts for a substantial portion of the Group's business interests. The Board therefore considers it unnecessary to appoint a chief executive officer of the Company. As for the management of the Board, this is a function already performed by Mr. KUOK Khoon Loong, Edward as the Chairman of the Board. The Board considers this structure will not impair the balance of power and authority between the Board and the Management.

The Board meets at least four times a year at quarterly intervals and meets more frequently as and when required. Mr. ANGELINI, being an Executive Director of the Company, reports to the Board on the Group's affairs. The Board believes that this structure is conducive to strong and consistent leadership, enabling the Company to make and implement decisions promptly and efficiently.
